SUMMARY

Flutter Developer with 2+ years of experience building and delivering production-grade cross-platform mobile applications for Android and iOS using Flutter and Dart. Proficient in REST API integration, Firebase, and state management using GetX and BLoC. Strong foundation in mobile application architecture, performance optimization, and Android & iOS application deployment. Skilled at translating business requirements into scalable, maintainable solutions while collaborating effectively in agile, cross-functional teams.

PROFESSIONAL EXPERIENCE

Solviane CodeCraft Pvt. Ltd, Pune

Oct 2025 – Present

Associate Software Engineer

- Developed and maintained cross-platform mobile applications using Flutter and Dart, converting business requirements into scalable, user-friendly features.
- Built responsive UI screens and a reusable widget library, reducing duplicate UI code and accelerating new feature delivery.
- Integrated RESTful APIs and optimized application state management, improving data consistency and reducing UI re-render overhead.
- Improved app performance and stability across Android and iOS by profiling and resolving rendering and memory bottlenecks.

OIT Technology Pvt. Ltd, Pune

May 2024 – Sep 2025

Flutter Developer

- Designed and developed cross-platform mobile applications using Flutter and Dart, translating business and technical requirements into scalable solutions.
- Built reusable UI components and responsive interfaces, improving development velocity across multiple application modules.
- Implemented JSON parsing, push notifications (FCM), and local storage, enhancing offline usability and user engagement.

PROJECTS

Enterprise Mobility Platform

Flutter, REST API, WebSocket, Firebase FCM, Google ML Kit

- Developed production-grade Flutter applications with dynamic UI architecture, REST API integration, real-time WebSocket communication, and Firebase Cloud Messaging (FCM).
- Implemented background location tracking, offline data synchronization, secure data management, and Google ML Kit for document scanning and automated data extraction.
- Delivered scalable, secure, and high-performance enterprise CRM applications for Android and iOS by developing reusable components and collaborating with cross-functional teams.

Job, Course & Scholarship Portal

Flutter, Strapi API, PostgreSQL, Razorpay SDK

- Developed a multi-functional platform comprising five interconnected Flutter applications for job search, course discovery, scholarship management, and user profile management.
- Integrated Strapi REST APIs, PostgreSQL, and Razorpay SDK to enable secure backend communication, scalable data management, and payment processing.
- Delivered responsive, production-ready Android and iOS applications with secure payment integration and a consistent user experience.

Transport Management Application

Flutter, BLoC, Google Maps, REST API

- Developed and maintained a transport management solution comprising separate Driver and Employee applications designed to streamline employee transportation and vehicle tracking operations.
- Implemented real-time GPS tracking using Google Maps and location services, enabling employees to monitor assigned vehicles, view driver details, and manage transportation routes.
- Integrated REST APIs for seamless data synchronization and utilized BLoC state management to build scalable, maintainable, and high-performance mobile applications with an intuitive user experience.

TECHNICAL SKILLS

- Languages:** Dart, Java
- Frameworks:** Flutter
- State Management:** GetX, BLoC
- Backend & APIs:** REST APIs, Firebase (FCM, Firestore)
- Databases:** SQLite, Hive
- Tools:** Git, Android Studio, VS Code

EDUCATION

B.E. – Information Technology, Zeal College Of Engineering & Research, Pune

2024 (CGPA: 8.31)

HSC, R. C. Kale Arts, Science & Commerce College, Chiplun

2020 (63.54%)

SSC, United English School, Chiplun

2018 (74.80%)
